## APPROPRIATION OF 78 MILLIONS ASKED FOR RIVERS AND HARBORS

Estimates of Chief of Army Engineers to be Presented to Congress

## SIXTEEN MILLIONS ASKED FOR MISSISSIPPI RIVER

Budget Includes Half Million for Wisconsin Harbors

WASHINGTON.—Harbor and waterways improvement and maintenance will require appropriations of \$78,207,665 for the fiscal year of 1921, according to estimates of Major General Lansing H. Beach, chief of army engineers, in his annual report made public Friday. He recommended a rivers and harbors bill total of \$7,206,715, supplemented by sundry civil items aggregating 10,982,950 for continuing contracts and other items in other money bills.

The recommendations will be incorporated in the annual estimates submitted to congress at its session December 6.

The Mississippi river, from its mouth to Minneapolis, will require \$16,190,000 including provision for the Mississippi river commission, the report said. Missouri Harbors \$10,000,000, New York harbor and its adjacent waters \$5,800,000, the Ohio river \$5,555,000, Philadelphia and the Delaware river will require \$3,557,000; the Delaware and Chesapeake inland waterways \$2,500,000; the Missouri river \$2,115,000.

Recommendations for appropriations include: Duluth district, Great Marais, \$7,100; Agate bay, \$2,000; harbor at Duluth and Superior, \$62,500; Port Wing, \$2,000; Marquette bay and harbor, \$6,500; Grand Marais harbor of refuge, \$15,000; Warroad harbor and river, \$5,000; Zippel bay, \$2,000.

St. Louis district, Mississippi river between Ohio and Missouri rivers, \$1,000,000; removing snags, \$50,000; between Missouri river and Minneapolis, \$2,000,000.

Milwaukee district: Manitowish, \$7,500; Menominee, \$28,000; Green Bay, \$59,500; Fox river, \$36,500; Sturgeon Bay and Lake Michigan ship canal, \$25,000; Kewaunee, \$4,000; Two Rivers harbor, \$6,500; Sheboygan, Wis., \$12,500; Port Washington, \$2,000; Milwaukee, \$175,000; Racine \$165,000; Kenosha, \$45,000; Waukegan \$116,500.

## HE MADE 'EM SHE'D CALL COPS

DENVER, Col.—Tom Annear, chief of the U. S. mint here, tendered a brand-new quarter in exchange for a wedge of pie at a cafe. "Hold on, mister," protested the waitress suspiciously. "This don't look good to me. It's bent." "Oh, it's all right," he tried to give her another coin, but she said he might have called the cops if it wasn't a mutual acquaintance hadn't identified Uncle Sam's money maker.

## Catarrh Will Go

Help Comes in Two Minutes—Complete Relief in a Few Weeks

Don't go on hawking yourself sick every morning; it's cruel, it's harmful and it's unnecessary. After breathing Hyomel, the wonder-worker, you are not rid of the catarrh you can have your money back. No stomach dosing—just take the little hard rubber pocket inhaler that comes with each outfit, and pour into it a few drops of Hyomel. Breathe it according to directions. In two minutes it will relieve you of that stuffed up feeling. Use it daily and in a few weeks you should be entirely free from catarrh.

Breathing Hyomel is a very pleasant and certain way to kill catarrh germs. Get a Hyomel outfit today. It's sold by druggists everywhere with guarantee to quickly and safely end catarrh, croup, coughs, colds, sore throat and bronchitis or money back; it's inexpensive. Hoerschler Bros. can supply you.

## Buy Your Warm Winter Wear NOW

You can wear them OUT, but you can't "wear them out"

A GOOD Jersild Sweater will almost outlast the wearer. They take to a blizzard like a duck to water and it has about the same effect on them. They make you think the thermometer isn't right.

For the Jersild Knitting Company still maintains its old world standards. So many pounds of wool are weighed out for every sweater and that sweater has to weigh so many pounds when it is finished and before it goes into the box. You are buying heat units when you are buying Jersilds.

When you see a Jersild you are going to say to yourself "I didn't think they made things like that any more."

AND on top of all that, every seam in every Jersild sweater is finished by hand. There isn't a chance for it to tear or unravel. And that's why you can't wear it out.

Jersild Sweaters for men, women and boys all in the most attractive styles and all so warm and husky that weather doesn't mean anything in their lives.

Look for the advertising of the stores in this city that are handling the Jersild Wear and Jersild window displays. Buy your warm winter wear now.

# The Coming War Between the "Closed" and "Open" Shop

In the belief that the "open-shop" crusade is intended to undo everything union labor has accomplished and to "feudalize America," the heads of the American Federation of Labor are making war plans. These labor leaders agree "that a united front must be presented to these attacks, and that every unwarranted attempt to reduce wages and working conditions to prewar levels must be resisted with every legitimate weapon." Thus, as the Baltimore Sun notes, labor and capital are lining up for a finish fight. The leading business interests "will bargain collectively with labor only when forced to do so" and "a concentrated campaign of the employers' interests already has been launched against organized labor on the reaffirmation of the 'open shop' principle and on the stand that wages must be reduced as part of the process of deflation."

The labor situation is probably the biggest problem that confronts the great mass of the American people to-day, and as this article in the "DIGEST" this week—November 27th—presents opinions from all sides, it will be read closely.

## TURN TO RIGHTNESS

THEY that turn many to righteousness shall shine as the stars for ever and ever.—Daniel 12: 3. Lord by Thy favor Thou hast made my mountain to stand strong. —Psalm 125: 1.

## OVERPRODUCTION IN THE U. S.

THE country is undeniably in a business slump. Unemployment is growing. Factories are going on short time, closing, curtailing. Prices in wholesale lines have fallen materially, retail prices, though they have not followed to any considerable extent, are bound to follow.

Why? Why does the machinery of production slow down, crack and groan and finally come almost to a standstill?

"Overproduction," comes the answer. Europe cannot buy at her former rate, the products of American manufacturers, because her cash and credit are exhausted; merchants in America consequently are becoming overstocked; people won't buy at high prices; retailers are trying to unload at high prices; therefore orders are not being received at the factories—therefore pending industrial distress.

What is "overproduction?" Does it mean that everybody in America has all he or she wants to make a comfortable life? Does it mean that America has "too much" of the things that go to make life livable—food, clothes, houses, amusements?

Not at all. The country is five million houses short of enough roofs to keep its people comfortably housed. Millions of men, women and children, if official reports are to be believed, are living below the level of a decent and comfortable existence—are underfed, underclothed.

Overproduction in any real sense does not exist. What does exist is inability to market goods at a profit; inability to sell back to the men and women producers of the country the goods they have produced. There is something wrong with the industrial machinery when all the people cannot get sufficiently fed, clothed and housed. Wouldn't it be a fine thing if the incoming administration would set itself to solve just that one problem?

How to make the industrial machinery meet all the needs of all the people.

## BY THE BALLOT

SIX thousand cotton mill workers at Danville, Va., voted to reduce their wages twenty-five per cent. This was done after the corporation executives had argued their inability to pay the high war wages at the low selling price of cotton cloth.

The vote was resorted to under the policy of industrial democracy adopted eighteen months ago.

It follows without saying that it is better, under a scheme of industrial democracy, for employees to decrease their own wages than, under any scheme of industrial autocracy, for the employers arbitrarily to cut wages, but this is not the moment to insist that this experiment proves the success of the policy.

One must wait until, at a time of rising prices of cotton cloth, one sees if these same cotton workers may as easily increase their wages by use of the company ballot-box.

## WHY NOT?

ABOLITION of the "electoral college"; the names of presidential and vice presidential candidates only printed on the ballot, where a few hundred voters' petitions in each state will place them; a direct vote for president and vice-president; abolition of party conventions; a chance for nominees other than those approved by politicians—such is the proposal for change in the organic law of the nation which will be pressed by Senator George V. Norris of Nebraska.

In all but name—and expense—the "electoral college" is a dead letter now so far as its original intention is concerned. The original plan of the fathers of the constitution contemplated that the people in each state should choose a number of wise and farsighted men who in turn would get together and, in their wis-

dom, pick out a man who would make the best president. The thing didn't work. Political parties came along and seized the machinery so elaborately set up and used it for their own purpose. Now, scarcely a voter realizes that he or she is voting for "presidential electors."

But though the machinery is ineffective in carrying out its original purpose, it is effective in giving political conventions and political bosses an opportunity to exclude from a possibility of running for president anybody except the choice of a political convention.

Norris' plan of abolishing the electoral college, allowing a man to run for president by petition of a reasonable number of voters, and having voters vote directly for their choice for president and vice president is worth careful consideration.

The theory that the further removed government is from the people the better it is is a bolshevik theory, unfitted for America. Electing electors, who in turn elect, is not good democratic American practice.

## YOUR CHILD'S TEACHER

DO you know your child's teacher? Have you ever called on her to discuss the human being for whom you and she are jointly responsible?

She is your child's best friend, outside the home. She is your partner in the business of bringing the child up to worthy citizenship. Your interest in this business is far greater than hers. She is always an active, tireless partner; but too many parents are silent ones.

The teacher is deserving of the confidence the parent places in her, but it is not fair that she should be obliged to bear the whole responsibility for the education of the child.

It is the duty of the parent to confer frequently with the child's teacher, just as a conscientious business man confers often with his partners on the condition of the business.

The teacher should be cultivated as a strong, personal friend with whom the parent shares the most congenial of common interests.

She should be visited at least once a month and consulted as to the child's weaknesses and the methods whereby the parent can best cooperate in the work of the teachers. The good school and the good teacher welcome the cooperation of the helpful parent; but there is a difference between the helpful parent and the merely critical one.

If you are not yet acquainted with your child's teacher, suppose you call on her; and get acquainted; and have a long talk about your child. You will learn much from her; and she will learn much from you; and then both of you will know the child better.

With the exception of yourself, who is a better friend of your child than his teacher? Become a friend of hers.

### TEN YEARS AGO TODAY

Mrs. Elihu Baker of Skagway, Alaska, who has been visiting with her parents, Mr. and Mrs. A. H. French, started last night for her home.

Bishop Schwabach officiated yesterday at the dedication of a new Catholic church in the town of Oakdale, near Sparta.

Delegates from Methodist Episcopal churches all over Wisconsin and Minnesota will be in La Crosse November 29 and 30 to attend the Methodist Episcopal convention. Bishop John W. Hamilton of Boston, Massachusetts, and Bishop Robert McIntyre of St. Paul will address the gathering.

A number of cases of scarlet fever not attended to by physicians have been discovered by Health Officer Murphy. As a result of this neglect, health authorities fear the disease will spread and are taking extra precautions to prevent an epidemic.

### TWENTY YEARS AGO TODAY

Word has been received here that Cole Burke, who left La Crosse for Alaska a few years ago, has taken a position on the staff of a San Francisco newspaper.

Mr. William B. Webb, at one time chief of the fire department in this city, but for the last fifteen years a resident of Anaconda, Mont., where he is interested in a lime kiln and mining operations, is in the city visiting friends.

Twenty people are now at work at the new button factory washing, cutting, and drilling clam shells. As yet no finished buttons have been turned out, as the polishing machine will not be in operation for another week.

J. Arthur Block arrived in the city Wednesday from a trip to Galveston, Texas. Mr. Block volunteered his services to Hearst's Chicago American to go to the relief of the storm sufferers in Galveston. He was in charge of the first of the Hearst relief trains, with a corps of twenty trained nurses.

## THREE DEAD AND FOUR INJURED IN CROSSING SMASH

EAU CLAIRE, Wis.—Three persons were killed and four others injured when their automobile was hurled 100 yards into a ditch by Omaha train No. 63 at a grade crossing near Clear Lake.

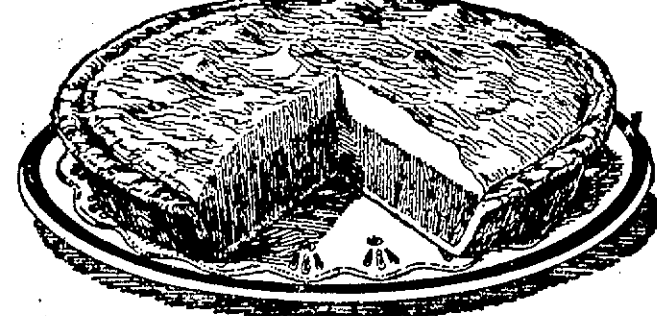

12 years old, and Mrs. Johnson's father were killed in the crash. Mr. Johnson, his wife, their little daughter, and Mrs. Johnson's brother, who was driving the car, were injured, the latter seriously.

He explained after recovering consciousness that he had stopped for the crossing, but that he had started the machine at the bidding of some one in the car. Force of the impact was enough to smash the pilot of the train, which was traveling at a high rate of speed.

The automobile was smashed to bits, it is reported. Persons familiar with the crossing say that the train would be visible for considerable distance in either direction.

It had been raining all day, and finally little Nettie asked: "Mamma, when God gets all the juice squeezed out of a cloud what does he do with it?"

## Quick Lemon Pie

Real Lemon at its best

Now comes Jiffy-Pie—real lemon pie, made by the makers of Jiffy-Jell.

It comes in a package, almost ready-made. The sugar is there, the egg yolk, powdered milk, corn starch and tapioca.

The real lemon essence is there—derived from lemon peel. It comes sealed in glass so it cannot deteriorate.

Add water, cook a little, and the filler is ready. You have the utmost in a lemon pie.

Perhaps you also make good lemon pie. But think of the time and the trouble. Think how rarely you serve it—the finest pie that's made.

Jiffy-Pie saves most of that trouble. It makes lemon pie convenient, quick and economical. You will serve it twenty

times as often when you let us make it for you.

It is made by the same people as make Jiffy-Jell desserts. You know those fruity dainties, with the real-fruit sealed in glass. The same high ideals are back of Jiffy-Pie.

We will pay your grocer for the first pie if you are a Jiffy-Jell user. Present the coupon to him—get the package. See how easily and quickly you can make the pie.

Compare it with your own pies. Ask how your people like it. Then remember that Jiffy-Pie is ever at your call. It costs only a few cents to serve it. It is little work to make it.

You'll be glad to know of Jiffy-Pie. Cut out the coupon now.

## FREE To Users of Jiffy-Jell

We will buy the first package of Jiffy-Pie if you are a Jiffy-Jell user. Present this coupon to your grocer and buy two packages of Jiffy-Jell.

Then your grocer will give you free one package of Jiffy-Pie. And we will pay him for it. Do this now, for this offer is temporary. We buy only one package for each home.

Proposes Departments of Pub-  
lic Works and Public Welfare

WASHINGTON.—Abolition of the department of interior, creation of two new departments—one to be known as the department of public works and the other as the department of public welfare—and general reorganization of other governmental departments is proposed in a bill prepared by Senator M'Cormick, republican, Illinois, for introduction at the coming session of congress.

The proposed department of public works would include all important engineering and building services of the government. The department of public welfare would include various welfare agencies of the government, such as the woman's bureau now in the department of labor, the pension bureau now in the department of the interior, the public health service, the bureau of war risk insurance and the vocational training board.

The department of commerce would be enlarged so as to increase its usefulness in business.

Creation of an office in the state department to have jurisdiction over insular affairs and territories such as Alaska would be provided for.

The measure further transfers to the department of commerce the weather bureau, patent office, coast guard, lake survey office, hydrographic office, naval observatory and inland and coastwise waterways service.

# My Adventures in the Midnight Frolic!

"JOHNNIES"

By Edith May

BY EDITH MAY

The other girls in the chorus, both in the Follies and the Midnight Frolic, where I appeared part of the time, are always getting mail. They read the letters together, and giggle.

"Listen to this John!" He says I remind him of the woods in springtime—Oh, Boy, wouldn't that keep you awake! He wants me to go out in the country with him Sunday. Probably in the subway to Bronx Park! Can you see little Tottie toddling around looking at the pretty animals? Will I go? You tell him, tooth, you got the nerve!"

"I've got a note," put in another girl, "from a dark stranger who says it's his own fault if I ever go home in the street car. He's got a couple Rolls-Royces lying around, rusty for lack of use. I say, girls, leave us look him over. He'll be at the stage door with a white flower in his button-hole."

The call-boy handed me a few letters, too. They were all from high school girls, saying how much they admired me and would I please send an autographed photograph—they were making a collection "of their favorite actresses."

"You're as Refreshing as a Cool Breeze"

While I was reading these, a tall, good looking man whom I had often seen standing about the stage door, spoke to me.

"Hello, little lady," he began, stepping close and sort of crowding me into a corner. "You're as refreshing as a cool breeze in this stuffy place. How did you happen?"

His voice was pleasant and gave me confidence. I told him in a few words how I had been chosen in the National Salesgirls' Beauty Contest and was enjoying my "reward" of six weeks with Ziegfeld and six weeks later with the Mayflower Photoplay Corporation. He looked at me, half amused, half admiring.

"You can get on. If you want to," he said, with a quick glance at my home-made serge dress, my old hat, my gloveless hands.

"I don't know that I want to keep

it up—this sort of work," I answered. "Then why did you go into the thing?"

"I believe I was thinking of the money end of it. There seems to be more money in stage work than in anything else."

There is, I guess. And you've got the looks. I could introduce you to Lillian—

"I believe I was thinking of the money end of it. There seems to be more money in stage work than in anything else."

rough edge of my hat brim scrape his cheek. It must have hurt, for he made a quick exclamation and let go of me. I rushed blindly off, into my cousin's very arms, who had come to find me.

"Why, what's the matter? Have you seen a ghost?"

"Yes," I said, laughing uncertainly. "Oh, Edna, I wish—"

"Well, wish!" she was laughing, too. "Wish that some nice man was going to take us out to dinner and for a motor ride before the night performance."

"Edna!"

"Mr. White and Peter are waiting for us outside!"

Even the Roots of

Superfluous Hair Vanish

(Entirely New Method, Works Wonders)

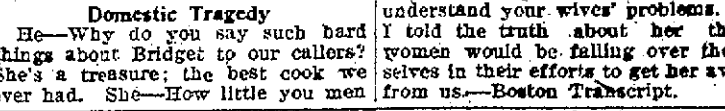

What is the use of merely taking off the hair-ends and not destroying the roots of superfluous hair? Do you know that you can easily and quickly remove the hair entirely, including the roots, with ordinary phenacetine? Just try it! It is odorless, non-irritating, and so harmless a child could safely eat it. Far superior to depilatories, electrolysis, etc. Get a stick of phenacetine today from your druggist and have the pleasure of actually removing the offending hair-roots at last—before your very eyes.

## Save the Babies

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. There can be no danger in the use of Castoria if it bears the signature of Chas. H. Fletcher as it contains no opiates or narcotics of any kind.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## BIG POULTRY SHOW OPENS WEDNESDAY AT FAIR GROUNDS

La Crosse will be the mecca for poultrymen when the annual poultry show opens next Wednesday, December 1, in the large spacious poultry building at the fair grounds. Entries are coming in large numbers from poultry fanciers throughout the state and the entire northwest and when the show is finally staged it is expected that the display will be one of the best ever held in this city.

One of the features of the show this year will be an exhibit of Jersey Black guinea, a new breed originated by crossing well known varieties to perfect an extraordinary table bird. These birds are very large, greenish black in color and dress with a perfectly yellow skin, thereby making them a favorite on the American market. While there are but few of these fowls bred to date they promise to become popular for market purposes.

Probably never before have so many local fanciers entered birds for the show, which is an indication that the high cost of feed has not discouraged them in raising poultry this year. Secretary J. E. Kirsch, who is in charge of the exhibit, predicts that this year's show will contain more strictly high class birds than ever inasmuch as local breeders have consistently been striving to improve their flocks and many valuable birds were purchased for breeding purposes.

Those who have not entered their birds will have up to Monday night to make entries. The earlier the entries are received, however, the better, because it will enable the superior birds to be classified and get them entered without a delay. Wednesday will be devoted to receiving the birds at the show, and it is expected that everything will be ready for the judging which begins on Thursday morning and will continue until Sunday evening. The public is invited to attend and no admission will be charged. Everyone interested in standard poultry, pigeons and not stock is urged to see the show. The poultry show is conducted for educational purposes and the promotion of more and better poultry.

## BRITISH FLAG STARTS RIOT IN NEW YORK

(Continued from page one)  
Police officers stirred the Irish sympathizers to a higher pitch of anger. There was a lively controversy between the leaders, and it is alleged that word went around that the club was to be sacked. At 3 o'clock several members of the mob dashed toward the entrance of the building. The police rushed forward and met the rioters. The police withdrew to the further sidewalk. At this time further demonstration had been obtained, and the bombardment with stones, bricks, and bolts was renewed. The police suffered from pelting by the missiles that fell short of their aim.

Mr. Lovell ran through a rain of missiles into the clubhouse. He begged Mr. McManis to pull down the British flag, but the man speaking for the committee, declared such a concession would be too dangerous a recognition of mob law.

While this parley was going on indoors at the club the police began an expanding advance movement against the rioters, and the sidewalks, curbs and roadway were cleared and a neutral zone established by the mounted police.

Mr. Lovell ran through a rain of missiles into the clubhouse. He begged Mr. McManis to pull down the British flag, but the man speaking for the committee, declared such a concession would be too dangerous a recognition of mob law.

## CENTRE TEAM SCORES 469 POINTS AGAINST 55 FOR OPPONENTS

DANVILLE, Ky.—Two outstanding features characterized Thursday's 103 to 0 victory of the Centre college football eleven over Georgetown college, Kentucky.

By the win the Danville "Praying Colonels," have piled up 469 points to 55 for their opponents in nine games played this season. In addition, "Red" Weaver, Centre's center, who played only a part of the game, kicked four goals, making ninety consecutive ones for him. He has not missed a goal kick since the first game of last year's schedule.

## Famous Actress Tells How She Uses Derwillo to Beautify Her Complexion

MISS LOUISE HUFF

New York—Miss Louise Huff, the clever young actress, is famous for her beautiful complexion. When her friends inquired about it she said: "It is all due to a toilet preparation called Derwillo which I have used twice daily. The experience I have had prompts me to make my secret public. This wonderful Derwillo instantly beautified my skin and its continued use has made the results permanent." When Miss Huff, the well-known beauty specialist, was interviewed in reference to Miss Huff's remarkable complexion, she stated: "Anyone can have a beautiful complexion when they know how. It is a very simple process. I use the same article, in my work, and until you try it you have no idea of the marvelous results. The very first application will astonish you. Go to the toilet counter of any drug store or department store and get a bottle of Derwillo. Then make the following test: Examine your skin critically before your mirror, note carefully its appearance, then cleanse your skin with a good cold cream (like Cold Cream I have found to be the best), then apply Derwillo as directed. After you have made the first application look in your mirror again and note the surprising change. A peach-like color comes to the cheeks; a baby softness comes to the skin; it makes the skin rosy-white, velvety and radiantly beautiful. It is wonderful for a dark, sallow skin, shiny nose, freckles, tan, oily skin, sun spots, coarse pores, pimples, blackheads, chapped, rough skin, ruddiness, wrinkles and many other facial blemishes. Now that short sleeves are in vogue you will want beautiful hands and arms. There is nothing like Derwillo for this purpose. Derwillo is absolutely harmless and will not produce or stimulate a growth of hair. It is superior to face powder, as perspiration does not affect it, therefore it stays on better. Hundreds of thousands who are using it have had the same results as Miss Huff, and I am sure if you will give it a fair trial you will become just as enthusiastic as she is and always use it in preference to any other powder or beautifier."

NOTE—When asked about Derwillo one of our leading druggists said, "It is truly a wonderful beautifier. Away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to anyone who is dissatisfied. This guarantee would not be possible unless the product possessed unusual merit." It is sold in this city under an iron-clad money-back guarantee by all department stores and up-to-date druggists including Moeschler Bros. and C. A. Begun.

## RECOMMENDS 16-INCH GUNS FOR DEFENDING U. S. NAVAL BASES

Armament Must be Equal to Any Brought Against it by Hostile Ships

WASHINGTON.—Adequate defense of naval bases calls for the installation of no major caliber armament of less than 16-inch guns, Major General Lansing H. Beach, chief of engineers, declares in his annual report, made public Friday. The armament must possess power and range sufficient to oppose successfully any which can be brought against it by a hostile navy, the report asserts, and should be placed on fixed mounts.

Existing armament should not be removed, General Beach says, as it has an important function in constituting interior and secondary lines of defense especially against armored raiding vessels or first line ships able to pass the outer main line of fortification.

Construction of a comprehensive system of interior roads and waterways, especially along the frontiers, is of great necessity as a measure of defense the report said.

## CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRH, DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with catarrh of the nose, head or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalants and nose douches are liable to irritate the delicate mucous membrane and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages to the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Eucalypti (Double Strength). Take this home and add to it 1 pint of hot water and a little granulated sugar. Stir well dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the ear and throat is reduced. Eucalypti used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action which helps to restore the desired health. The preparation is easy to make, costs little and is pleasant to take. Every person who has ear, nose or throat trouble or is hard of hearing should give this treatment a trial.

## RUSHFORD HOLSTEIN PRODUCES 22½ POUNDS BUTTER FAT A WEEK

RUSHFORD, Minn.—Oliver Haslerud, a farmer of North Prairie, a few miles north of this city, owns a three-year-old Holstein heifer which has the splendid record of producing 22½ pounds of butterfat in one week. The test was recently made under the supervision of a representative of the Testing Association. Mr. Haslerud has specialized in Holsteins for some time and his dairy herd is one of the finest to be found in this county. His son, E. J. Haslerud, recently stood fourth in the judging of Holsteins, the contest being held at Chicago. The young man also won the \$300.00 scholarship offered by the Holstein-Friesian Association of America.

## FLOWN HALF THE DISTANCE TO MOON!

NEW YORK.—Colonel Cedric E. Fauntleroy has flown half the distance to the moon. Oh, no, he wasn't trying to reach the moon. The colonel was a flyer in the Lafayette Escadrille, flew in the American army in France and then organized the Kosiutko Squadron to fight in Poland. He has piloted planes between 130,000 and 140,000 miles or half the distance to the moon in 1100 hours in the air. Herbert Hoover asked him to return to America to tell Americans what Poland needs.

The wood of the gutta percha tree is too spongy to have any timber value.

## SOUTHERN MINNESOTA HARVESTING RECORD BREAKING CORN CROP

RUSHFORD, Minn.—Southeastern Minnesota is now harvesting one of the largest corn crops ever raised in the history of the section according to experts in that line. Many farms in the rich black-loam section of Root river valley are yielding one hundred bushels of corn per acre.

## "BLIND YOUTH"

All the world loves a lover, and if report be true, there is no artist on the American stage who can compare with that eminent actor-manager, Lou Tellegen, in the art of making love. This he will demonstrate at the La Crosse theater on Wednesday, December 1, when he will present himself (in person) and his excellent company

of players, in a significant revival of his greatest of all American successes, "Blind Youth," the comedy drama in three acts by Willard Mack and himself, which enjoyed such long and prosperous runs in New York, Boston and Chicago.

Mr. Tellegen is booked for a trans-continental tour this season, and his company includes Lorna Ambler, Juliette Crosby, Helen Grayce, Marcela Baguer, Kathryn Howard, Richard

Simson, George Debenbourg, Schuyler White and Russell Clark, while the production is brand new, an exact duplicate of the sumptuous settings which characterized the long runs in the above mentioned cities.

Mail orders will be accepted now in the order received, the box office sale of seats opening on Monday next.

## AVERAGE WAGES IN NEW YORK DOUBLE EARNINGS IN 1914

Increase of \$2.00 Over Last  
Year's Wages Noted in In-  
dustrial Report

NEW YORK. — Average earnings in this city's representative trades in September, 1920, were double what they were six years ago and, generally, \$2 a week higher than they were a year ago, according to a report prepared by the Industrial Bureau of the Merchants' Association. The report declares that, while the city's industrial activity has receded somewhat from the high water mark established during the war, there is no indication of a general slump in manufacturing. Charts giving the average weekly earnings of workmen, combining both office and shop employees, for September, 1914, 1919 and 1920, show, for the above named years respectively:

Stone, clay and glass products: \$13.06, \$26.58, \$35.11. Metals, machinery and conveyances: \$14.50, \$27.31, \$30.67. Wood manufacturers: \$12.49, \$24.26, \$28.42. Fur, leather and rubber goods: \$11.77, \$27.00, \$26.42. Chemicals, oils and paints: \$13.67, \$24.79, \$27.00. Printing and paper goods: \$15.58, \$27.36, \$31.38.

Textiles: \$9.72, \$21.03, \$24.79. Clothing, millinery, laundry, etc.: \$12.40, \$27.68, \$26.16. Food, liquors and tobacco: \$11.00, \$23.40, \$26.04. Water, light and power: \$15.79, \$20.94, \$25.59.

The general average of these industries for the three years runs: \$13.06, \$26.17 and \$28.44.

## LIGHTING RATES IN MINNESOTA TOWNS GO UP ON JANUARY 1

RUSHFORD. — Lighting rates in Spring Valley, Wykeff and nearby places have been raised. At Wykeff, there was recently held an open meeting of the village council and patrons of the Northwest Utilities Electric Co. to consider a raise in electric light and power rates. A Spring Valley man said the increase was due to high prices for material, labor, etc. The new rates will not take effect until Jan. 1, 1921. Rushford rates have not been raised.

DOGS TRAIL SLAYER  
MERIDIAN, Miss. — When bloodhounds trailing the supposed slayer of Mrs. Lewis Morris, 56, whose body was found on a farm near here, Thursday, led a sheriff's posse of which he was a member, to his own home, Roy Miner, 22-year-old son of a wealthy manufacturer, was arrested.

The small deer of the Andes, known as the guanaco, has only two horn prongs.

## ARMY OF LABORERS HARVESTS CORN CROP ON HUGE IOWA FARM

DECORAH, Ia. — Those who have seen the famous Adams farm, near Odebolt, this state, speak of it in highest praise, as to the manner in which the 3,200 acres of corn which is now being harvested is cared for by the army of laborers employed there. One hundred wagons, drawn in all by two hundred mules, line up every morning for corn-busking. There is a hospital upon the farm and the place resembles a real village because of the large number of buildings required to house the farm laborers. This farm was once owned by Hiram Wheeler, who died some time ago, while in Texas.

## COMING SATURDAY

Well fortified with a chorus of surpassing loveliness, gaily garlanded from head to heel, and with choice ingredients which make burlesque an attractive and popular entertainment, the "Girls from the Polles" will do their level best to amuse and beguile patrons of the La Crosse theater Saturday night, November 27.

Fred Binder, who is high and mighty in his particular field of endeavor, that of Hebrew characters, heads the tribe of funsters. In a two act farce, "Here and There," he proves a master of comedy in the broadest

and funniest sense. Fred is a versatile entertainer and is equally good as comedian, singer, dancer or musician.

Mies Babe De Palmer, a dandy sou-brette, shares honors with Mr. Binder. Babe will look attractive in some sparkling Parisian gowns, to say nothing of her remarkable figure in tights. Billy Kelly, Lee Howard, Bill Trueheart, Billy Walsh, Theodore Murphy, Mabel White, Lucia Arnold and Pauline Gray are some of the others who contribute largely to the success of the show.

A solo dancing sensation will be introduced by Mlle. Fantina, a beautiful Spanish dancer. Speaking of Fantina's dancing the press says: "There is some sense and novelty to all her dances that are fully appreciated, and she works her audience up to the highest possible pitch of enthusiasm." There are several other surprises in the show which should make the "Girls from the Polles" one of the strongest musical attractions of the season.

Thirty-five private secretaries are employed to look after the private correspondence of the pope.

# WRECKED BOILER BELIEVED TO HAVE BEEN DEFECTIVE

MADISON, Wis.—That the boiler which exploded at the Stoutington Manufacturing company works Wednesday, killing four men and one woman, had been inspected and reported as safe, was officially stated Friday morning by E. B. Withers, secretary of the industrial commission.

"The boiler," said Mr. Withers, "was a second-hand one and was probably defective."

An inquest will be held Tuesday. None of the injured was seriously hurt and all were expected Friday to recover.

## DOUBT CONFESSION OF WOMAN THAT SHE SHOT HER HUSBAND

CHICAGO, Ill.—The disappearance of the revolver which released the bullet which struck dead Frank L. Mitchell, Wednesday night, made the

police Friday loathe to believe Mrs. Geneva Mitchell's confession that she shot and killed her husband.

"Ritchie" and "Pinkie" Mitchell, Milwaukee pugilists, who the woman said were brothers of her husband, were expected here Friday for the inquest.

## Sealdsweet Grapefruit for Food and Health

Tune the meal and tone the system. Nature's own aids to the digestion of other foods. Appetizing, delicious, refreshing and strengthening.

The ideal fruits with which to begin breakfast and end dinner. True food-fruits, delightful and beneficial at every meal, they may be served in a wide variety of ways.

## Say Sealdsweet Soon

This week, Today, Now! To Your Fruit Dealer

Say to your fruit dealer:

"I want Sealdsweet grapefruit and oranges.

"This season I shall expect you to supply them to me regularly."

Say this to him right away, that he may have opportunity to provide for a stock of these superior grapefruit and oranges.

Say also that some nearby wholesale house will regularly furnish him Sealdsweet fruits out of carload shipments received direct from the cooperating growers who form the Florida Citrus Exchange.

To make sure of dependable grapefruit and oranges, look on boxes and wrappers for the Sealdsweet trademark of Florida Citrus Exchange.

Say Sealdsweet to your fruit dealer and keep on saying it; if he hesitates, tell him you insist on having Sealdsweet grapefruit and oranges. Most good dealers like to sell them because they give such satisfaction.

The Florida Citrus Exchange is a great body of 5,000 grapefruit and orange growers who sell their own fruits to avoid speculation in them.

## Sealdsweet Oranges-Better Because Juicier

All oranges are good, but Sealdsweet oranges are better than most.

They are better because heavier in juice, the food and health element of oranges.

Buy Sealdsweet oranges for your health's

sake; enjoy them because of their rare deliciousness.

Try Florida Sealdsweet oranges and see for yourself how much more juice they give than oranges from sections less favored by nature.

**RIVOLI**  
Noble love in primitive environments will probably never cease to wield a magnetic influence over the human race and for that reason, for no other, it is certain there is going to be far more than the average interest manifested in the presentation of "Nobles of the North," James Oliver Curwood's latest contribution to the screen which is the attraction at the Rivoli theater. It is said the author of this latest Associated First National release has succeeded in devising a love story replete with so much fervor that the very frigidity of the far north, the locale, seems to melt away into a paradise of the tropics minus the physical aspects. Granting that love in the rough erude weeks of the world has "rough sloughs," it could not all be any worse than "the love that doesn't run smooth" in our largest cities.

**RIVIERA**  
Dorothy Dalton in "The Vampire" will be the feature attraction at the Riviera. Thanksgiving day, Miss Dalton assumes the role that made her famous in this picture, that of a woman who takes the easiest way. It is one of her best pictures of late, and the supporting cast is excellent including Howard Hickman.

If You Haven't Tried Begy's Mustardine You'll Marvel at Its Speedy Action

Oh, what quick relief! The sharp, agonizing pains of rheumatism relieved in a few minutes—gone in an hour. No wonder rheumatic sufferers swear by it and use it freely. And now that you have in your home a yellow box full of this quick-acting pain killer on hand, bear in mind that it gives just as quick results when you have a sore throat, or a cold in the chest, or lumbago, neuralgia or sore, aching feet. Just rub it on; that's all you have to do, and you'll find that toothache, headache, neuralgia or backache won't linger with you long. Just think—a 30c box is equal to 50 blistering mustard plasters, but Begy's Mustardine cannot blister even the tenderest skin—the yellow box—50 and 60 cents. Heescher Bros. can supply you.

**CASINO**  
Whether humor, or grim determination is the more powerful factor in achieving success, is the theme for Goldwyn's latest starring vehicle for Tom Moore, "The Great Accident," as a story, was read enthusiastically by two million readers, week by week, when the story appeared in serial form in "The Saturday Evening Post." As a photoplay more than twenty times that number of people will see it, and enjoy it all the more because of its genuine portrayal of people who were created by the pen of the popular author Ben Ames Williams. In this picture Tom Moore is the carefree, not-included-to-work son of Winthrop Chase of Hardiston, who is a candidate for mayor of the town of Chase. Sam is confident of the outcome of the election, inasmuch as he has had numerous assurances that his platform represents the people's choice. Chase would have been elected, if Congressman Caretelli had not decided to prevent his success by very devious methods. Election day came, and it hardly seemed necessary to count all the ballots because a casual survey of the votes showed that Win Chase, Junior, had been elected instead of his father. Caretelli, crafty old politician, had convinced the majority of the people that it would be really humorous—a good joke on the old man—to elect this almost (officially) worthless son to the office he was intent on winning. The rapidly with which the plot

Irritation and Breaking Out Often Healed Over Night, Says Skin Specialist

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation. Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.

**DJOU**  
Neal Hart, who made such a hit here in "Hall's Oasis," returns in "Louie Hand" at the Bijou today and Saturday. It is a story of the west in the days of 49 when might was right. It contains all the thrills that were in his last picture with a few more added for good measure. An unusual love plot is interwoven to give it added zip.

The sole road into Nepal is purposefully kept in bad repair, the idea being to make invasion difficult.

**The First COFFEE RECIPE.**

(To make the drink that is now much used, called COFFEE.)

The coffee berries are to be bought at any drugstore, about 75c per pound. Take what quantity you please and over the charcoal fire until they are quite black, and when you stir one with your teeth it is black within as it is brown outside. Beat and force through a third of it away, and it is fit for use. Take one-quarter of this prepared water, put in it one ounce of your prepared coffee and boil it gently one hour and it is fit for your use; drink one quarter of a pint as hot as you can sip it.

**If this was coffee—**

If this rank, bitter concoction brought joy and satisfaction to the men of the 17th century what would they say to the coffee that we know today? What would they say to Yuban, the highest development in the history of coffee?

What a contrast between these crude methods and the care that is spent on Yuban—roasted according to scientific principles—right to the fraction of a degree and a minute. Ground or pulverized to exactly the right size for the different methods of brewing.

Arbuckle Brothers have developed the preparation of coffee to a fine art. Yuban has the flavor that generations have sought.

## WEBBER AND GREEK MILO UP FOR TILT AT YEOMEN MONDAY

"Get ready. I'll be there Monday, November 20."

This was the wire received from Jack Milo, Greek champion of Minneapolis, in regard to a grapple with Jack Webber, local champion. Milo will enter Yeoman hall Monday night with a record of which any wrestler could be proud. He defeated Joe Meyers of Ottumwa, known to all followers of the wrestling game in this state, and won easily over Kid Winers. Jack Milo claims to be the "world's greatest" Greek, middleweight champion wrestler and boxer, and is ready to stand back of his claim at any time. He will come here with blood in his eye to avenge the defeat of the Greek.

Demon of Moline, Ill., and promises to put the victory once more on the side of the Greeks.

Unusually good preliminaries have been secured to preface the main go according to Pat Hankerson, promoter. In the initial grapple, Saylor Nelson, a 160 pound ex-fog, with a fine navy record will meet Earl Lohr, a 150 pound mat man. Lohr is well known as an amateur wrestler. Saylor Nelson is a real corner of the game, having held his ship championship during all the time he was in service. The first match of the prelims will feature Eugene Wells and Windstorm Black, two speedy local grapplers, coached by Webber and Sampson.

Webber has been training hard since his defeat of the Greek Demon, and promises to win another Greek to the mat on Monday.

"I came back after losing one fall and pinned one Greek to the mat before," said Webber this morning. "I'm in the prime of condition, and you can tell the Minneapolis gentleman for me that I'm afraid it will take more than one Greek to defeat me."

The Greek is confident himself. He writes, "While we look upon this bout as a workout, we appreciate that Webber is coming along pretty fast, but can hardly expect to win. To which Webber only smiles, and chuckles to himself."

## MADISON TROUNCED BY SUPERIOR HIGH THURSDAY 47 TO 7

Northerners Display Varied  
Attack; Work Pass to  
Advantage

MADISON, Wis.—Superior high school won the right to meet fast Green Bay for the state high school football championship, by completely outclassing Madison high eleven on Thursday, 47 to 7.

The northern team displayed a versatile and fierce attack that threw the Madison boys off their feet. Black, fullback for Superior, and last year's center on the all-intercollegiate basketball squad, was used to good advantage. He plowed through the defense like a tractor, and it was his plunging that was mainly responsible for the big score.

Superior also worked the double pass to advantage. From the first quarter on, there was no doubt about the outcome. Superior, boasting a big handicap in weight, crushed the will of lighter opponents, and showed the quality of coaching which it has received all season.

For Madison, Parkinson, halfback, and Meyers, tackle, played the best game.

Superior and East Green Bay now remain the two undefeated teams in the state. Green Bay is anxious to meet Superior to settle for the first time in history, the state high school football championship. Fred Lueking of the chamber of commerce, Green Bay has appealed to the Milwaukee newspapers to have the game staged in that city, and the newspapers there are now trying to bring the two teams together at Milwaukee a week from Saturday.

One newspaper has donated its willingness to award a handsome silver trophy to the champions, if the game is arranged.

## NOTRE DAME SQUAD OUTPLAYS AGGIES IN 25 TO 0 SCORE

Series of Forward Passes Nets  
Two Touchdowns in the  
Third Period

EAST LANSING, Mich.—Outplaying the Michigan Aggies in every department, Notre Dame's eleven added another victory to its string Thursday afternoon, 25 to 0.

The visitors scored on the kickoff in the first period. Coughlin, right half, receiving the kick and rushing eighty yards for a touchdown. The Aggies showed somewhat in the second period, standing off the drives of several first string men sent in by the visitors. The half ended with the Aggies holding on their two-yard line.

A series of forward passes was opened up by Notre Dame in the third period and netted two more touchdowns. Another touchdown was added in the final period on a blocked punt. E. Anderson, substituting for Hayes at left end, carrying the ball over.

## "U" OF CALIFORNIA AND OHIO STATE TO MEET AT PASADENA

PASADENA, Calif.—Choice of a western eleven to meet the champion Ohio State university aggregation in the annual east-west football game here New Year's day was the principal work of today's meeting of the football committee of the Tournament of Roses association. Ohio's acceptance of the invitation was received Thursday. University of California, champion of the Pacific coast conference, was the favorite of football enthusiasts for the selection.

## OHIO STATE ASSURED OF BIG NEW STADIUM

COLEMBUS, O.—Officials in charge of the campaign to raise \$1,000,000 for a football stadium at Ohio State university on Thursday were sending out notices to alumni that the stadium is assured as only \$75,000 remains to be subscribed to the fund. It is expected that Saturday will find the entire amount subscribed. Preliminary construction work will be commenced within a few days, it was stated. The new stadium is designed to seat 60,000 people.

## JACK JOHNSON DEFEATS OPPONENTS IN BOUTS AT LEAVENWORTH THURSDAY

LEAVENWORTH, Kas.—Jack Johnson, former heavyweight of the world, knocked out Frank Owens of Chicago in the last round of a six-round bout, and then boxed Topeka Jack Johnson another five rounds at the federal prison here Thursday afternoon. Regulation fighting gloves were used and the rounds were of three minutes each.

In his bout with Owens, a 240 pound negro, Johnson knocked his opponent down twelve times during the contest before he finally sent him to the canvas with a terrific left hook to the jaw in the last round.

Before Johnson entered the ring he exhibited a bad abrasion on his right hand, and it was noticeable he seldom used that member for his hand punches. He thus explained to newspapermen after the fight his inability to finish Owens sooner.

Johnson appeared to be in good condition and it was the opinion of fight critics that the former champion is still a formidable fighting man.

Topeka Jack Johnson, his second opponent, is a clever boxer of about the former champion's build, and their four round bout was more of a sparring match, with the former champion easily outboxing Topeka Jack.

Four other bouts between prison inmates preceded the main event. The ring was pitched in the prison ball park and was witnessed by about two thousand prisoners and a few hundred especially invited guests.

## HILLTOPPERS WIN TURKEY DAY CLASH FROM WABASH CREW

Marquette Stages Great Battle  
and Trims Little Giants

21 to 7

INDIANAPOLIS, Ind.—Marquette, fighting every inch of the way, took the Wabash aggregation by surprise here Thursday afternoon and when hostilities had ceased, the Hilltoppers had copped the annual turkey day clash with the Little Giants, 21 to 7.

It was a great battle and even though Coach Ryan's well trained crew outplayed their opponents at every stage of the game, the Indiana eleven was dangerous at all times.

On straight football, Marquette took the kickoff on the thirty yard line and battered the Wabash line un-

## MOB REFEREE AT MENOMINEE, MICH.

MENOMINEE, Mich.—A professional football game between Menominee and Marinette teams broke up when Marinette fans stormed the field at the end of the first half and mobbed Referee Keyes of Niagara Wis. The game was forfeited to Menominee which team was leading, 7 to 0, when the disorder broke.

Walsh scored a touchdown in the second period when Aul blocked Walsh's punt recovered the oval and raced sixty yards for the lone marker. Thompson kicked goal. Langhoff kicked all three of the Marquette goals after touchdown.

BOSTON, Mass.—Joe Stecher, claimant of the world's heavyweight wrestling championship, successfully defended his title against John Olin, the Finnish wrestler. Stecher won his match in forty-three minutes, forty-five seconds, using a scissors and head lock.

## Get the Proofs for Lalley Superiority

"Getting right down to brass tacks" as the saying goes—Why is the LALLEY LIGHT superior?

That's what you want to know, have a right to know and should know. It's good business.

We are not going to attempt to explain in detail here the reasons for LALLEY superiority; we prefer to merely give you a few of the outstanding LALLEY features, then, ask you to come in and get the figures and the proofs.

The LALLEY LIGHT will furnish sufficient power, direct, without the aid of the battery, to save you 20% expense.

—It does not need a large, expensive battery.

—It is built for exactness and precision — to last and give dependable service for years.

—It runs as quietly and smoothly as a sewing machine.

—It is the simplest plant made, having only three moving parts.

—It can be assembled and disassembled with a wrench and a screw driver in a short time.

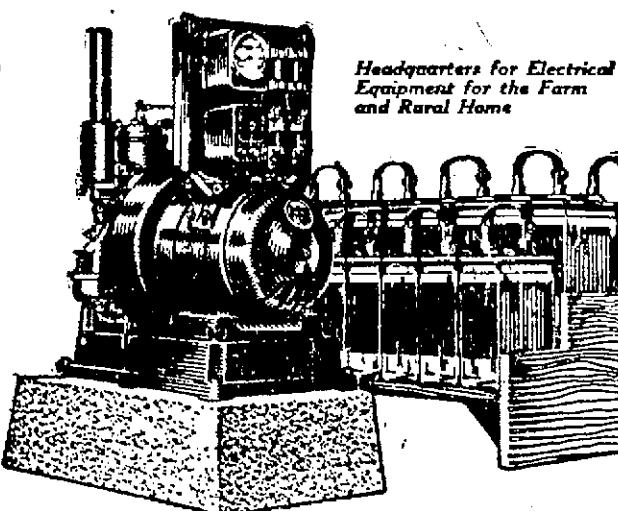

—It has been used by thousands of owners over a period of 10 years.

These are mere statements, of course, but they should arouse your interest sufficiently to come in and have us prove them.

That's what we are here for — to explain the LALLEY LIGHT and demonstrate its superiority. Come in at your earliest convenience.

have been reduced to

**\$29 \$39 \$49 \$59**

We might as well tell you the truth about it; we can't make any money selling clothes at such prices. But we DON'T WANT to make money now. We want to make this store the most talked about place in La Crosse from the standpoint of values, service, styles. We're willing to spend a lot of money doing that. Hart Schaffner & Marx are helping us with unusual values. You get the benefit.

OUR entire stock of haberdashery and furnishings reduced to proportionately Low Prices. A splendid opportunity for the early Xmas shoppers.

**IT'S not a bit of trouble to**  
I have plenty of good things to eat on hand all the time, when you use Calumet Baking Powder.

**It never allows baking trouble.** You don't "dread" to bake. There is nothing to worry about—and that really is the hardest part of it.

**Mix up a batch of biscuits—**or the finest kind of cake—it's all the same. There is never but one result—the sweetest and most palatable of foods.

**There is not as much worry** over baking costs either. Because Calumet costs less—when you buy it—the price is moderate.

**—the Kind Mother Uses!**

**CALUMET BAKING POWDER**

It costs you less when you use it—because you don't use as much of it—it has more than the ordinary leavening strength.

You get more out of the flour, sugar, eggs, shortening, etc., because there are no failures—no waste.

The most critical of baking powder judges gave it highest awards, World's Pure Food Exposition, Chicago, Paris Exposition, Paris, France.

The largest selling brand in the world.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

**Calumet Doughnut Recipe**  
4 cups of pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 teaspoon of salt, 1 cup of sugar, 2 eggs, beaten together, 2 tablespoons of melted butter, 1 cup of milk. Then mix in the regular way.

MARKET REACTIONARY  
NEW YORK—Heavy losses in certain specialties featured Friday's market. Petroleum and Gracible Steel suffered extreme losses of five points. United Fruit fell 2 and Royal Dutch, Pan-American and Houston 2 to 2 1/2. Baldwin lost 3 points. Virginia-Carolina Chemicals 3, International Paper 3 1/2 and Vanadium and Lackawanna Steels 1 1/2. Ralls followed by General and for 2 and 1/2 but strengthened when buying of Aichison, Norfolk and Western, Southern Pacific, New York Central and Rock Island effected actual gains of 1 to 3 1/2 points. American Woolen was first among the specialties to revive and Pittsburgh and West Virginia enhanced. Wednesday's substantial gain on dividend rumors. Call money opened and renewed into next week at six per cent.  
Favorite issues recorded variable gains to the close of Friday's stock market, the movement depicting further short covering. Within the first half hour, however, a sharp reversal set in, especial weakness being shown by shipping and oil. Atlantic Gulf and Mexico Petroleum lost 3 points, Royal Dutch 2, Baldwin locomotive 1, and Canadian Pacific and St. Paul large fractions. Baldwin gains in points. Northern Pacific, United States Steel, Bethlehem Steel and American Sugar were forfeited. Exchange on London and other foreign centers was heavy.

CHICAGO LIVESTOCK  
CHICAGO, Ill.—Cattle—Receipts 19,000; best corn-fed steers and canner cows, steady; other classes slow to move. Slightly lower on dividend rumors. Steers fed with snow stock, \$18.00; bulk native steers, \$9.50 to \$13.25; butcher cows mostly \$4.75 to \$7.00; canners largely \$3.50 to \$4.75; calves, slow to 50 cents lower; few weaners above \$13.00; stockers and feeders weak.  
Hogs—Receipts 38,000; July 25c higher than Wednesday's average; but packers buying sparingly, but few hogs left in first hands; top, \$10.25; bulk, \$9.80 to \$10.15; pigs, 15 to 25c higher; bulk, desirable, 100 to 150 pound pigs, \$9.75 to \$10.00.  
Sheep—Receipts 9,000; fat lambs, strong to 25c higher; choice native lambs to city butchers, \$11.50; bulk natives, \$10.00 to \$11.00; fat sheep firm; bulk fat native ewes, \$4.00 to \$4.50; feeders, steady.

WHEAT HITS \$1.50 MARK  
CHICAGO, Ill.—In a general rush to sell, wheat tumbled Friday to below \$1.50 a bushel, the lowest since the world war. The immediate bearish factors were a break in the cotton market and a new down-turn in foreign exchange. British buying quotations took place on the downward swing of prices, but rallies failed to last, and the market fell as low as \$1.47 a bushel for March delivery. Quotations from initial bottom figures.  
Comparative firmness was shown later as a result of estimates that 1,000,000 bushels domestic growth have been bought for export of the Gulf of Mexico corn making 4,000,000 bushels so far this week. The close was unsettled, six to seven and three-quarters not lower, with December firming to \$1.53 1/2 and March \$1.48 to \$1.48 1/2.  
Corn weakened with wheat. After opening 3/4 to 1 1/4 lower, including May at 70 1/2 to 70 3/4, the market recovered a little, but then sagged again. December corn touched the lowest point yet since before the war, but the market subsequently showed stubborn

resistance to selling pressure. The close was nervous 1/4c not decline to 3/4c advance, with May 71 1/2 to 71 3/4.  
Oats were depressed by the action of other cereals, starting 1/4c to 3/4c lower, May 47 1/2 to 48 1/2, and continuing weak.  
An advance in hog values counterbalanced to some extent in the provision market the bearish effect of grain decline.

When You Have Money To Invest  
You rely largely on the responsibility of your Investment Banker. If he is not of responsible character or does not have your welfare at heart, he may sell you securities either of doubtful value or which do not fit your requirements. Your Investment Banker should have earned your confidence through your own knowledge of his integrity and dependable character. It is the basis of safe investment.  
The La Crosse Trust Co. has for many years provided conservative securities for La Crosse investors. A Discount Committee of its Board of Directors approves of all bonds offered and these bonds are first purchased for its own investment. They are chosen primarily for safety of principle. We will be glad to suggest a conservative investment security when you have funds to invest.

## CYPRIAN BUISSON, OLD RIVER PILOT IS DEAD; BURIAL IS AT WABASHA

For Many Years He Towed Logs Later Becoming Pilot on Steamboat Clyde

The funeral of Cyprian Buisson, 72 year old pioneer Mississippi river pilot, who died Wednesday in Minneapolis, was conducted from the St. Felix church at Wabasha, Minn., Friday at 10 a. m. The body will be interred near his former home.

Born at Wabasha on September 25, 1848, "Cyp" as he later came to be called in river circles, spent his boyhood days on the banks of the Mississippi. His father, Joseph, who had emigrated from a Canadian-French

settlement to Prairie du Chien, Wis., only to move on again to Wabasha, was an agent for the American Fur company at Mendota in the early 40s. At 16 years of age the junior Buisson pulled an oar on a floating raft for an old pilot at Wabasha. When the steamboats came he became pilot on the steamboat Clyde.

1877 he became master and chief pilot on a steamer towing logs from Stillwater to Beel Slough and West Newton, points just below Alma, Wis. He held this position for 20 years, and acquired a reputation as a pilot of unusual ability. He retired in 1917 because of ill health.

His grandfather on his mother's side was an old British officer, Duncan Graham who was a Scotch artillery captain in the war of 1812.

Mr. Buisson is survived by his widow, Lillian, and one sister, Mrs. J. A. McLaughlin, the wife of an Indian agent at Fort Totten, N. D. She is the only surviving member of his family.

## HOW "JULIE" GOT HER NAME

From George V. Hobart's account of the manner in which a name for his heroine in "Buddies" was selected his choice of Julie Benoit would seem to be nothing short of inspiration. The locale of this delightfully human and humorous comedy which the Selwyns will offer here at the La Crosse Theater Tuesday Nov. 30th after a full season in the Selwyn Theater, New York, is that of picturesque Brittany. Never having been to France, and knowing few French people Mr. Hobart felt a bit puzzled as to a suitable name for the peasant girl who do-

minates the romance of "Buddies." During the days of his youth he had known a family of Benois who lived near his home in Nova Scotia, but he had quite forgotten the existence of these good folk—or thought he had—until it rushed into his thought, when trying to decide upon a last name for Julie, that Benoit would be quite suitable. It sounded French and the people he had known who bore it were French, so Mr. Hobart adopted it and thought no more of the matter until after "Buddies" had its first production in Boston more than a year ago. Soon thereafter Mr. Hobart's fifteen year old daughter gained her father's

permission to novelize his new comedy, for which B. C. Hillman has written the interpolating music. To help her in this undertaking Mr. Hobart went to the library and took home an armful of books on Brittany. His ambitious young daughter took them in charge and after spending several days pouring over them approached her father with a beaming face.

"Do you know that the name of Benoit is very closely woven into the entire history of Brittany?" she asked.

Mr. Hobart disclaimed any credit for such knowledge and told her how he had happened to adopt the name

for Julie, her mother and her two quaint little sisters in "Buddies," whereupon he was told that not only is the name one of a prominent family but is also that of one of the best beloved Saints of that quaint country where his fragrant tale is unfolded.

He's Hunting Now for His Valuables NEW YORK.—Robert Bigelow, a banker, decided to go on a hunting trip. So he closed up his house and made tracks for the woods. He's back now, but he's still hunting. This time it's all the valuables of his house. A burglar had evidently been hunting, too.
